School plan 2015 – 2017

Tallowood School 5459
Strategic Directions
## Tallowood School background 2015 - 2017

### School vision statement

‘Creating pathways for Life’

Our school is committed to each student achieving maximum independence and engagement for their post school life in their communication abilities, emotional well-being and respect for self and others.

---

### School context

Tallowood School is a Public, Private Partnership SSP School (School for Specific Purpose) located in Kellyville. The school enrolls students from Kindergarten to year 12. The current enrolment is 99 students. All students have a moderate or severe intellectual disability and many students have additional physical and sensory disabilities, autism or other syndromes. The school population is drawn from seven local council areas including The Hills, Holroyd, Parramatta, Blacktown, Penrith, Hawkesbury and Hornsby. The school opened in 2004 and is purpose built with a range of facilities. It provides a safe, attractive and caring learning environment for our students. Every student has a Personalised Learning Plan (PLP/IEP), designed in collaboration with families and carers, to identify specific learning priorities for each student. Our skilled staff uses a holistic approach to differentiate the Board of Studies NSW Australian Curriculum in the key learning areas to meet the individual learning needs of our students. Our school has a range of innovative programs including work experience, hydrotherapy, Riding for the Disabled (RDA), sailing, Zumba classes, Tallowood farm and community access programs. The school is generously supported by The Hills community.

---

### School planning process

Ongoing consultation, including surveys, questionnaires and group discussions have occurred with parents and staff to determine our strategic directions for our school planning.

Parents and staff were asked to identify their vision for our school. Common themes clarified our purpose in continuing to provide teaching skills for life, through explicit instruction and meaningful and purposeful teaching in a stimulating happy and safe environment.

A number of areas for future planning have included a continued focus on developing individual communication skills for our students to allow choice and decision making. Providing our students with a wide range of interesting and age appropriate learning activities.

All acknowledged the importance of developing ‘the whole child’. Their emotional well-being, respect for self and others, maximum independence, physical health and exercise and personal self-care skills.

Parents expressed their need for more shared information on student learning and investigating innovative ways for students to communicate between school and home.
**Purpose:**
To develop a collaborative and supportive learning environment that has high expectations for our students’ learning and meets their individual needs and abilities and celebrates their achievements.

**Purpose:**
To develop staff skills and capacities in providing quality teaching and learning programs to raise the level of student achievement.

**Purpose:**
To develop partnerships which are connected and effective. To develop productive networks which support student, staff and family well-being.
## Strategic Direction 1: Each student will be an engaged and successful learner with a voice.

<tr>
<td>To develop staff skills in their effectiveness in providing quality teaching and learning programs to raise the level of student achievement.</td>
<td><strong>Staff:</strong> Develop mentoring and coaching skills in leaders to foster a supportive culture for ongoing feedback and improvement. Develop a culture of working collegially and collaboratively. Research informs teaching and learning practices. Staff reflect on their teaching practices and change to improve their practices.</td>
<td>School’s current practices are assessed against the Schools Excellence Framework. The Performance and Development Framework is implemented to ensure the school is a collaborative and supportive workplace committed to ongoing learning by all. Staff receive feedback on their teaching through collaborative lesson observations. Beginning teachers achieve and maintain their accreditation requirements and reflect on their current practices. Stage groups meet collegially to share and plan the design, implementation and assessment of authentic learning activities. Mentoring is effectively established as a practice. Professional learning is targeted to further develop knowledge, skills and capabilities of staff. Professional learning builds on existing strengths and supports career aspirations. Staff are involved in activities to develop consistent teacher judgement in assessment of students.</td>
<td><strong>Products:</strong> Professional Development Plans (PDP) results in increased capacities in teaching and leading. Assessment and tracking of student achievement in all Personalised Learning Plan (PLP) goals. The school’s induction program is documented and implemented. Class programs document differentiation for all students. <strong>Practices:</strong> All teachers have high quality performance and development aligned to the professional teaching standards that includes professional learning and feedback. Staff are working effectively in collegial groups. Formal mentoring is planned and systematic to support colleagues at their professional stage. Staff are achieving and maintaining levels of accreditation. Teachers are sharing the development and implementation of differentiated lesson development.</td>
</tr>
</tbody>
</table>

**Improvement Measures**

- 100% of permanent and temporary staff are meeting the requirements of the Professional Development Framework.
- Assessment and tracking shows student achievement in 80% of Personalised Learning Plan (PLP) goals.
## Strategic Direction 3: Our community is engaged and informed.
